

There are two different ways to set up or use the mapper:

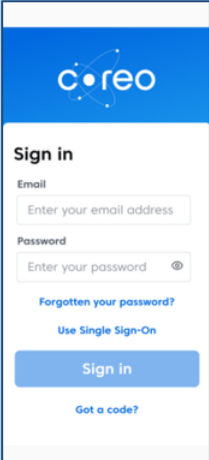

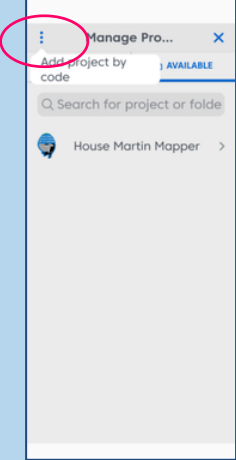

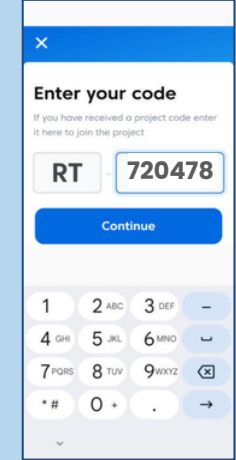

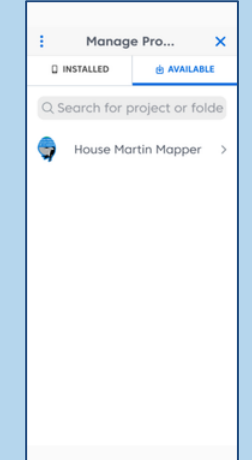

- If you use the Swift Mapper APP sign in using the same Coreo account details then follow the instructions from step 2 to 7 in the blue box below
- If you don't have a Coreo account or use Swift Mapper but wish to set up via laptop/computer follow the steps from 1 to 4 in the green boxes below

Step 1: Download the APP or Access via the internet

Using your phone: scan the following QR code
or use this link - <https://coreo.page.link/xSkoUsrcv1AXEeZY6>

Using a laptop or computer: use this link - <https://coreo.app/>

<p>Step 2: Use the same email and password as you do for Swift Mapper</p>	<p>3. Press get started</p>	<p>4. Click the three blue dots – add project by code</p>	<p>5. Enter the code RT 720478</p>	<p>6. Choose House Martin Mapper</p>	<p>7. Install project</p>
					

<p>Step 2: Click got a code</p>	<p>3. Enter the code RT 720478</p>	<p>4. Sign up to the project</p>	<p>5. Create your account</p>	<p>4. Add the project to your account</p>	<p>5. Sign into your account</p>
